

Suman Roy

PRODUCT SECURITY ENGINEER & PENETRATION TESTER | 4X CVES | 5+ YEARS

hello@sumanroy.in +91 79084 76597 West Bengal, India github.com/sumanrox linkedin.com/in/sumanrox sumanroy.in

PROFESSIONAL SUMMARY

Product Security Engineer and Penetration Tester actively seeking Application Security and VAPT leadership roles. Proven track record securing enterprise cloud environments, leading offensive security programs, and driving vulnerability remediation at scale. Recognized by the MSRC and Jenkins Security Hall of Fame for responsible disclosure, with a strong foundation in distributed systems and engineering team mentorship.

EXPERIENCE

Penetration Tester (Freelance)

YesWeHack / Self Employed

Remote

Aug 2025 - Present

- Performed application security testing across private enterprise programs, identifying and validating vulnerabilities in production environments.
- Partnered with engineering teams through responsible disclosure to remediate authentication, authorization, and API security issues.
- Focused on securing modern web applications by identifying access control weaknesses and improving overall application security posture.
- Conducted offensive security assessments for **46+** government and private platforms, automating reconnaissance workflows using Python.
- Awarded** Hall of Fame by the **Microsoft Security Response Center (MSRC)** for responsible vulnerability disclosure.
- Awarded CVE-2026-57285** (Medium 4.3) CVE for discovering and responsibly disclosing, an Information Disclosure in Jenkins
- Awarded CVE-2026-27100** (Medium 4.3) CVE for discovering and responsibly disclosing, an IDOR in Jenkins leading to Hall of Fame recognition.
- Awarded CVEs** for identifying critical Insecure Deserialization vulnerability **CVE-2025-70559** (High 8.3) in pdfminer.six and **CVE-2025-70560** (High 8.4) in Boltz.

Security Researcher / Application Security Engineer

Loginsoft (Client: Checkmarx)

Hyderabad, India (Remote)

Feb 2024 - Jul 2025

- Conducted vulnerability research across major open-source ecosystems including Python, Java, PHP, Ruby, Go, and JS.
- Performed static analysis and manual code review to identify CVE and non-CVE vulnerabilities, contributing intelligence directly to the Checkmarx SCA platform.
- Tracked and correlated vulnerable package versions across ecosystems, embedding security checks into development pipelines.

Senior Associate / Technical Support Specialist

Wipro Digital Operations and Platforms

Kolkata, India

Nov 2019 - Dec 2021

- Promoted from Associate to Senior Associate; managed security incidents and production system reliability across enterprise-scale environments.
- Handled 1,000+ critical issues with a 95% resolution rate, performing root cause analysis (RCA) on distributed system failures to identify systemic risks.
- Led technical response efforts and mentored 18+ engineers on debugging, system resilience, and secure operations.

SKILLS

Engineering & Architecture

Python Go Java JavaScript
PHP Ruby Bash SQL Git
REST APIs GraphQL Docker
Kubernetes AWS Azure
Distributed Systems
Linux System Administration

Product Security & Engineering

Secure Code Review
Vulnerability Research Threat Modeling
Penetration Testing API Security
Cloud Security Red Teaming
Incident Response Reverse Engineering
Fuzzing DevSecOps
Responsible Disclosure

Security Tooling

Burp Suite OWASP ZAP Nuclei
Semgrep Nmap Metasploit
Wireshark Checkmarx SCA
SonarQube Splunk Trivy Snyk
Nessus Nexpose

Frameworks & Standards

OWASP Top 10 MITRE ATT&CK
NIST CSF ISO 27001 PCI-DSS
GDPR HIPAA SOC 2 CWE Top 25
SLSA SSDLC CIS Controls CVSS
CWE SAST SCA

CERTIFICATIONS

CEH v12 Cisco Cybersecurity Analyst
Oracle Cloud Infrastructure Associate
